Sewing Machine Thread

13/5 100% Polyester – Available in 20-lb cones, 2 per carton

Made from 5 plies of 13.00's polyester yarn, this is our most commonly used thread type. Taking into account the higher yield due to its excellent strength to weight ratio, this thread is less costly than blended thread and less prone to overheating. If your closing filled bags, this is probably the thread for you!

13/5 100% Polyester (Portable) – Available in 8-oz cones, 32 per carton

The same thread as above, except in small 8-oz cones for use on hand-held sewing machines.

12/5 Poly/Cotton Blend – Available in 5-lb cones, 12/carton; & 20-lb cones, 2/carton

Made from 5 plies of 12.00's blended poly/cotton yarn, this tried & true thread provides improved sewing efficiency in certain single-thread sewing applications. [also 2.5-lb cones, 18/carton, while supplies last]

Crepe Tape

1-7/8" 70-lb Natural (Brown) Crepe – Sold in 24" diameter rolls; 84 rolls/pallet

Our standard brown crepe tape; we use it every day. Full pallets contain approx. 1,260 lbs of tape.

1-7/8" 70-lb Bleached (White) Crepe – Sold in 24" diameter rolls; 84 rolls/pallet

Our standard white crepe tape; full pallets contain 1,260 lbs of tape.

Blown Machine Stretch Film

20" x 6,000' x 80 gauge – Sold in pallets of 40 rolls

Works like a charm on most stretch wrapping systems; it's what we use.

30" x 4,000' x 120 gauge – Sold in pallets of 20 rolls

If you're looking for a wide, heavy-gauge film, this might do the trick!

Additional types, colors, and sizes available for thread, crepe tape, and stretch film. Please call us with your special requests!

Other Finishing Items

Chip Boards – 48 x 40" sheets; 20 mils thick; sold in pallets of approximately 2,500

These sturdy chip board sheets provide a very cost effective way to keep your pallets of bags clean and orderly. They can be used to cover loaded pallets and as a protective layer between pallets and filled bags or the bottom layer before stacking bags onto the pallet.

Corrugated Separators – 48 x 40" sheets; 1/8" thick; sold in pallets of 500

Corrugated slip separators provide a thicker, more rigid solution than the chip boards described above for added durability and protection of your loaded pallets.

Polyethylene Shrouds – 3-mil; sold in rolls of 50 shrouds (22 rolls/pallet)

Available in both black (104x68") and clear (55x45x114"), these massive bags are sized to fit over a pallet of bags. The black shrouds offer UV protection and both offer great protection from the elements.

Polyethylene Pallet Covers – 1.5 mil; sold in rolls of 75 covers (20 rolls/pallet)

Available only in clear. These are made specifically to cover a pallet of 25, 50 or 100 lb filled bags (textile or multiwall) and will cover most filled bulk bags. Not recommended for outside storage.
